

## FROM DARK SITUATION TO A BRIGHT FUTURE

**A**ngela used to stay with her mother after her father died, her mother started working at an orphanage center as a mother, and Angela was left at the care of the orphanage after her mother got married because her stepfather did not want to live with her.

At the age of 18 she got pregnant by a married man during her last grade of Secondary level of education. The man refused to take the responsibility and due to some other reasons, she decided to go for an abortion.

Firstly she was afraid to be kicked out of the orphanage and secondly she did not want her mother to know as she was the only child. Fortunately she confided in her best friend whose uncle works for a particular counseling centre known as Advocates For Life International where they prevent abortions. Her best friend discussed with her the badness of abortion and so she told her not to go for an abortion no matter how bad the situation was. Afterwards the leaders at the orphanage found out that she was pregnant, they kicked her out of the orphanage. Her best friend shared the matter with the uncle who helped a lot by finding an accommodation at Sara Rose Maternity Home and some people to pay for her schools fees.

By God's grace after some months she gave birth to baby girl who is loved so much by her mother and her grandmother.

The girl is so brilliant at school, she is in baby class. The teacher's remarks for her are that she is very intelligent girl. We had a very quality time when she visited our center beginning of this week.

The mother of the child is now engaged to her longtime friend who has since taken her back to school to rewrite the courses she did not do well and he is helping take care of the baby and paying for her school fees.
